***It is very important to arrive promptly at your child's scheduled time to make the most of the phase-in period.
Our phase-in helps children become accustomed to the new environment, new teachers and new classmates.
Staff helps with the transition into the Toddler environment from the school entrance. When dropping your child off,
please make your goodbyes quick and confident during these first days and throughout the school year.
Children take their cues from the adult; when you show trust and confidence in your child's ability
to handle this new experience, your child will feel more secure.***
